

## **Clean Seed Capital selected by Canada's Largest Agricultural Show's New Innovations Committee**

February 28th, 2013 – Vancouver, British Columbia – Clean Seed Capital Group Ltd. (“Clean Seed” or the “Company”) (TSX-V: CSX) is pleased to announce that Canada's Farm Progress Show, New Innovations Review Committee, distinguishes Clean Seed Capital's No-Till technology as innovative and approves its application to showcase its technology from June 19 – 21, 2013.

Canada's Farm Progress Show is widely recognized as Canada's dry land farm technology show. The Farm Progress Show is an event that has matured into the industry's leading agriculture showcase. It promotes the latest in agricultural equipment, technology, services, and farming practices. The Show has earned a strong reputation by continually providing attendees with the opportunity to see the latest and the best innovations in agriculture production.

“We are delighted that our application was accepted by the New Innovations review board and consequently awarded significant space to showcase our proprietary no-till technology at the country's largest agriculture show. We submitted three (3) proprietary innovations for review and were accepted on all 3. This welcomed endorsement by the review committee substantiates the unique and innovative nature of our technology and we look forward to unveiling our complete portfolio at this esteemed event that attracts more than 45,000 people from over 50 countries”, stated Graeme Lempriere.

### About Clean Seed Capital Group

Clean Seed has developed an advanced no-till precision planting system comprised of individually patented technologies. These technologies include all-cast opener assembly systems, in-ground openers, proprietary seed and fertilizer metering and electronic control systems that combat soil erosion, reduce seed and fertilizer use and nurture the subsurface biodiversity vital to producing healthy and sustainable crops.
