

SHAREHOLDER UPDATE

April 16, 2019 - Vancouver, British Columbia

Clean Seed Capital Group Ltd. (TSX-V: CSX) ("Clean Seed") wishes to advise that it will not proceed with the acquisition of Harvest International Inc. ("Harvest International") of Storm Lake Iowa. During final stages of our due diligence and syndicated financing efforts, the discovery of material changes to the Harvest International business presented new realities. As a result, Clean Seed Executive Management and Board of Directors elected to pause financing activities and allowed the Letter Agreement to terminate as no resolution could be reached to navigate the changes.

While disappointing in the short term, Clean Seed is extremely encouraged by the strength of support offered by its lenders and partners in the public markets along with Farm Credit Canada and Export Development Canada. We will build upon this support as we shift our focus to alternative strategic options and opportunities for the "iron" aspect of our business. Although this transaction will not proceed, Clean Seed and Harvest International remain willing to do business in the future.

Meanwhile, Clean Seed will continue to build on its respected foundation as a technology leader in the agricultural sector with the launch of our SMART Planter™ spring 2019 testing and demonstration program. This program will continue Clean Seed's momentum in the development of our highly advanced software systems, our revolutionary on board sensor, data and communications network and allow us to trial canola singulation in Western Canada.

We wish Harvest International well as they navigate the future.

Graeme Lempriere
Chairman of the Board of Directors and Chief Executive Officer

About Clean Seed Capital Group Ltd.

The common shares of Clean Seed Capital Group Ltd. are listed on the TSX Venture Exchange and trade under the symbol "CSX".

We are a team of innovators and business management professionals with a proven track record of game changing innovation and production of patented agricultural technologies at an incredibly high level. We pride ourselves as progress facilitators that quickly turn viable concepts and ideas into commercially viable products that can fulfill demand.

The CX-6 SMART Seeder™ is a revolutionary seeding tool that utilizes the unique synergy of sophisticated electronic metering and intuitive software control putting row-by-row six-meter variable rate technology at the forefront of agricultural innovation. Our innovations create a new class of highly accurate seeding equipment designed specifically for today's farmer.
