

Clean Seed Unveils Advanced SMART Seeder™ Mini-MAX™ with Electronic Singulation System at Mexico's Premier Agricultural Expo

November 5th, 2025 – Vancouver, British Columbia – Clean Seed Capital Group Ltd. ("Clean Seed" or the "Company") (NEX: CSX.H) is proud to announce the debut of its Advanced SMART Seeder Mini-MAX™, now equipped with a fully electronic singulation system driven by the Company's SeedSync™ Mini digital control platform. The Advanced Mini-MAX™ will be presented at the 30th annual Expo Agroalimentaria Guanajuato, Mexico's foremost agricultural technology event, in collaboration with its in country partner Maquinaria Agricola JAS ("MAJAS").

Precision Singulation for the Smallholder Revolution

The Advanced SMART Seeder™ Mini-MAX™ presents a major leap forward in Clean Seed's compact precision seeding platform. Building on the Company's proven success and variable rate foundation, the new Mini-MAX™ model introduces electronic **seed-by-seed singulation** delivering the control, uniform spacing, and accuracy required for **corn, maize, soybean and other singulated crops**.

Operated through **SeedSync™ Mini**, Clean Seed's intuitive mobile interface, the platform enables growers to adjust singulation rates and monitor seed delivery in real time.

The **electronic singulation module** will be also offered as an **aftermarket upgrade kit**, supporting retrofit opportunities for Mini-MAX™ units adding to Clean Seed's capital-light global expansion model.

Showcasing at Expo Agroalimentaria Guanajuato

Taking place November 11–14, 2025, in Irapuato, Guanajuato, Expo Agroalimentaria Guanajuato is Latin America's largest agricultural technology and innovation event, drawing over 120,000 visitors and 1,300 exhibitors from more than 50 countries each year. Spanning 62 hectares of exhibition grounds — including demonstration fields, greenhouses, and equipment zones — the Expo serves as a premier platform for global agri-innovation.

Clean Seed and MAJAS will jointly showcase the Advanced SMART Seeder™ Mini-MAX™ throughout the event, leading presentations and technical sessions to demonstrate how the new electronic singulation system, powered by SeedSync™ Mini, delivers next-generation precision and versatility for smallholder farmers across Mexico and beyond.

Strong Partnerships Supporting Global Growth

Clean Seed's ongoing collaboration with MAJAS, continues to strengthen its presence in Mexico and across Latin America. With a nationwide network of more than 500 dealers, MAJAS plays a pivotal role in delivering Clean Seed's precision technologies directly to farmers and supporting hands-on adoption of the Mini-MAX™ platform.

The Company also acknowledges the continued partnership of Mahindra & Mahindra Limited, the world's largest tractor manufacturer by volume, whose engineering and production expertise contribute to the ongoing refinement and scalability of the Mini-MAX™ platform.

As Clean Seed participates in upcoming international engagements focused on sustainable agriculture and innovation, the Advanced SMART Seeder™ Mini-MAX™ stands as a tangible example of practical, scalable technology empowering producers worldwide.

Graeme Lempriere, CEO of Clean Seed Capital Group, commented:

"The addition of electronic singulation significantly advances the Mini-MAX™ platform, delivering new levels of precision for smallholder farming. Farmers planting maize, corn, soybean and other singulated crops now gain digital precision once reserved for larger-scale systems. Powered by SeedSync™ Mini, the Advanced SMART Seeder™ Mini-MAX™ delivers control, simplicity, and sustainability, bringing next-generation technology to farms that need it most."

ON BEHALF OF THE BOARD

"Graeme Lempriere"

About Clean Seed Capital Group Ltd.

Clean Seed is an agricultural technology company accelerating the commercialization of its award-winning, internationally patented SMART Seeder™ technologies. Designed for real-world conditions these tools significantly reduce fertilizer usage while supporting higher crop performance and overall farm profitability.

At the heart of Clean Seed's offering is the SMART Seeder™ system—a breakthrough in precision seeding that combines advanced electronic metering with intuitive software control. Its ability to deliver row-by-row variable rate inputs positions it as a leading innovation in the next generation of sustainable farming.
